## A Gaze into Chemical Space

Scaffold Hopper

Analog Hunter

Motif Matcher

Query compound

depulfavirine  
NNRTI

Potent nonnucleoside reverse transcriptase inhibitor acting at many NNRTI-resistant HIV-1 isolates. (Javanbakht et al., 2010)

All displayed molecules are the best ranking results retrieved with **infiniSee** in the respective modes. The associated similarity score is provided for each entry in the box.

**Scaffold Hopper (FTrees)**: Fuzzy pharmacophore.

**Analog Hunter (SpaceLight)**: Tanimoto similarity.

**Motif Matcher (SpaceMACS)**: Maximum common substructure.
